Training Workshops for Homeowners

CONCRETE IS OUR PASSION!

Concrete Connection doesn't just say it...we live it!! Eleven years of hands on experience have given us an appreciation and love of working with concrete. Concrete is one of the most versatile and durable materials on the planet; practical yet beautiful. There has been a virtual explosion of concrete applications in the past several years. It is no longer relegated to plain ordinary sidewalks, driveways, and patios. Concrete as an art form has moved indoors....specially designed decorative floors, countertops, furniture, fireplace and vertical applications are featured in most interior design and architectural publications internationally.

Concrete Connection uses and is the sole California distributor of products manufactured by **Architectural Enhancements, Inc. A.E.I.** is constantly researching & developing new, innovative products offering one of the broadest decorative & faux product lines available. These High performing products are consistent and easy to work with.

Concrete Connection's experienced staff offer hands on training for **anyone** interested in learning decorative and faux concrete techniques using the most superior line of products available today. No experience is needed...we will teach you. Proper training is critical. Whether you are a Do-It-Yourself homeowner or wanting to start or improve your concrete business....we offer a class specifically designed to meet your needs.

Free Workshop*
